Healing unseen wounds through the comradery involved in the playing of golf is the goal of the [Fairways For Warriors](#) organization. Tampa Chapter Director, Jay Ellis, will share with us the mission of FFW, that is, to help combat wounded veterans of any era and to reduce the number of suicides in that population. Jay Ellis has much to say about FFW, for he is an Iraq War veteran, USAF retired, who sustained severe injuries from a roadside blast. Today, not only is Jay playing golf, but he is also a basketball coach and an actor. Come share an hour with Jay at 9AM at the GlenLakes clubhouse. As always, coffee and donuts are free to you and your guests.

Shred-It came to GlenLakes. You may recall we sponsored this service for all residents to safely and securely dispose of their sensitive documents two years ago as well. This was a **FREE** service to all GlenLakes residents, although we're grateful that many voluntarily donated to GLV&F in thanks.

Corporal Terry, the Hernando County Sheriff's Office Public Information Officer (HSCO PIO) discussed several of their local support efforts, notably the [Care Line 352-797-3660](#) comforting those living alone with wellness checks. The audience was also very impressed with Sergeant Keiper's K-9, Riley, demonstrating detection of electronic devices, e.g., in support of child endangerment and other critical investigations.

We also dedicated a gorgeous custom speaker's podium built by Dick Rowland and Joe Christie, that was accepted by G for use by any and all organizations at the GlenLakes Clubhouse. Its beautiful carved GLV&FA logo is quickly replaceable by a carved GlenLakes logo as needed.
